5. Now you can write your post in the main message field. To be on the safe side, you can write your post in a text editor such as Microsoft Word or Notepad, then copy and paste it into the message field. The reason is that some of our members reported that they had pressed the wrong button and lost everything they wrote.

6. It is possible to add an attachment, e.g. a family photograph, to the message. To do that, please scroll down to the Add an attachment section (it is below the main message field).

There are some limits of attachment type and size. You can click this link: http://forum.polishorigins.com/attach_rules.php?f=23 to see what file formats and sizes are allowed.

To add a file just click the Browse... (or 'Choose file' in some browsers) button. A new window will open through which you can browse your computer to locate the image or another file you wish to attach.

When you will choose your file, click open and the window will disappear (the same procedure as with adding attachments to emails). You will see the name of the selected file. Now click the Add attachment button and wait a few seconds for the file to be uploaded.

When your attachment is successfully loaded, you will see it below in section: Posted Attachments

You can add a comment to the file. To save it, please click the Update comment button. If you want you can add another files, up to 3 attachments are allowed per one message.

7. Anytime while preparing your message you may test how it will look when it is posted. To do it just click the Preview button (which is located at the bottom of the page)
